## EDUCATION

**Maharaja Surajmal Institute Of Technology**  
*Bachelor Of Technology-Information Technology*

2022-2026  
Current SGPA: 9.0

## EXPERIENCE

**RYM Grenergy Solutions** | *Frontend Developer Intern*

June-August 2024

- Created responsive user interface using React for a News portal featuring Top Stories, Headlines and news sections.
- Designed the Magazine website's Homepage with Cover Story, Editor's Picks, and various sections using Figma, increasing user engagement by 25% through intuitive and visually appealing layouts.
- Enhanced user experience by integrating Editorials, Search functionalities, and Categorized news sections, resulting in a 30% increase in user retention and a 20% faster content discovery rate.
- Incorporated 3D effects using Blender on Company's website and collaborated on documentation and design.

**IEEE Web Development** | *Member*

Feb 2024-Current

- Redesigned the IEEE MSIT website's navbar and Hero section using Figma and advanced CSS concepts, improving user interface consistency.
- Crafted a user-friendly navigation experience with a right-aligned menu and left-aligned logo, enhancing visual flow and increasing engagement with the photo carousel by 30% on first visit.
- Developed and optimized interactive UI components, including cards and society logos with hover effects, resulting in a 20% increase in user interaction.

## PROJECTS

**GymSo Fitness** | [Click Here](#)

- Led the integration of VR workouts and gamification features on the GymSo Fitness platform, increasing user engagement by 35% and boosting retention rates by 20% within three months.
  - Secured **4th position** in the SRM 4.0 Hackathon and **won Sponsor track** by developing a Bicep Curls Counter using MediaPipe for real-time pose detection, achieving a 95% accuracy rate, and reducing website load times by 20%.
  - Collaborated with cross-functional teams to enhance the user experience with AI-driven personalized fitness plans, resulting in a 15% increase in user satisfaction ratings and a 10% uptick in monthly subscriptions.
- Tech Stack: HTML, CSS, JS, MongoDB, Python, Solidity, AWS

**Canteeno** | [Click Here](#)

- Developed "Canteeno," a full-stack web application to streamline **my college canteen's** operations. This platform introduced the ability for students to pre-book meals, which successfully **reduced** wait times during peak hours by **60%**.
  - Implemented an [admin](#) portal equipped with features to manage orders, monitor inventory, and generate real-time reports, which enabled **better resource management** and ensured transparency between the canteen staff and students.
  - Created a user-friendly interface incorporating real-time order tracking and instant notifications, enhanced the overall user experience by enabling seamless food collection, reducing crowding during **peak hours by 80%**.
- Tech Stack: MERN ( React, Javascript, Express, MongoDB), TailwindCSS, Git, VS Code.

## SKILLS

**Languages:** C,C++, Python, Java, JavaScript, Typescript, HTML/CSS

**Frameworks/Tools:** React.js, Next.js, Node.js, Express.js, Bootstrap, Git/GitHub, VS Code, TailwindCSS

**Hard/Soft Skills:** Responsive Design, MySQL, OOPs, DSA, Leadership, Public speaking, Problem Solving, Time Management

## ACHIEVEMENTS/EXTRACURRICULARS

- Selected among the **top 60** for the **WISE'24 program**, supported by **Google** & offered by TalentSprint, chosen from over 12,000 applicants.
- Earned **2 Gold Medals** for achieving the **highest GPA** in the second and fifth semester of college.
- Successfully completed **over 450 coding challenges** on platforms like LeetCode and GFG, tackling a range of algorithmic and problem-solving tasks.
